[4MENTERA.com](https://www.4mentera.com)

SANT FRANCESC

It is the capital and main town of Formentera, where the Island's Council is located. Here you can find a wide range of services and shops.

With pedestrian areas in the center of town you can have a pleasant walk to reach Plaza de la Constitució (Constitution Square), discover many shops or sit in one of the many bar and restaurant terraces

SANT FERRAN

Not far from Sant Francesc, you will find Sant Ferran de ses Roques. With pedestrian zones in its urban area, and especially near the church square, you can enjoy its summer craft market which fills the village with colourful afternoons.

The main road of the island crosses Sant Ferran from North to South, which gives the village a sense of continuous traffic of vehicles, at least in that area of the village and, especially, during the Summer season.

EL PILAR de La Mola

Located in the highest and southernmost part of the island, El Pilar de la Mola is the village where the traditional culture and life of Formentera are still more present.

Its residents are popularly known as "virots" a nickname taken from a particular bird that nests in the cliffs of La Mola.

During summer months, on Wednesdays and Sundays, the hippy crafts market takes place in La Mola. It was the first one on the island and it started more than 40 years ago now.

LA SAVINA

Located in the northern part of the island, La Savina is the only commercial port and, therefore, has always been a place of vital importance for the Formentera residents.

With infrastructures built for passenger and yacht traffic, La Savina has the characteristic atmosphere of Mediterranean ports. A bustling area with passengers to and from Ibiza during day time and a more relaxed atmosphere on the terraces in the evening.

During the summer season, from noon until midnight, there are a number of stalls selling crafts that give a colorful and special atmosphere to the area.

ES CALÓ

Small urban area located next to the sea and around the natural harbor formed by the coastline in this beautiful corner of the island.

The slipway huts that shelter fishermen boats turn Es Caló de Sant Agustí into an ideal place of crystal-clear waters.

Since it is considered a port, swimming is not allowed inside Es Caló in order to avoid accidents between the bathers and boats.

ES PUJOLS

Without a doubt, it is Formentera's touristic area par excellence. Es Pujols is located in the northeastern part of the island and is filled with a diverse selection of shops, bars and restaurants, open during the Summer season. Its promenade and proximity to buildings and shops make Es Pujols beach, the only one with an urban atmosphere on the island.

Commercial and leisure options in Es pujols are probably the widest on the island during the touristic high season.

Llunyana i just a tocar,
sola i fent-nos companyia,
cap a la part de migdia
Formentera ens clou la mar.
I entre ribera i ribera,
amb un rosari partit
d'illots que treuen el pit,
resta la mar presonera,
terrassa del mariner,
íntim quintà de les illes,
blau laberint de cruïlles
que doble costa reté.
Formentera breu i dura,
creuada de l'oratjol,
estesa davall el sol
en una tarda madura.
Nu i esquerp pla formenter
de marès i roca viva,
sense defensa en l'aspriva
mossegada del febrer.

Marià Villanqomez
